BY PLANTING

RENNIE'S

STRAINS OF BULBS

WHICH HAVE GAINED HIGHEST AWARDS
AT THE PRINCIPAL SHOWS

For Exquisite Color, Size and Perfection of Bloom these Bulbs are Unrivalled.

PLEASE READ CAREFULLY

TIME OF PLANTING.—To the beginner we would particularly emphasize the fact that **now** and not **Spring-time** is the time to plant all kinds of spring flowering bulbs. The larger part of the bulbs offered in this catalogue reach us from Holland early in September, and the sooner they are planted after that the greater will be the measure of success; therefore **order early**.

WHEN SHIPMENTS CAN BE MADE.—The general line of bulbs will be ready for shipment in September. A few kinds (chiefly Roots and Lilies) are not ready for shipment before November, as they are not matured enough to take up before that time. Therefore please note that all general orders will be shipped as soon as received in September, and the balance will be forwarded as early in November as possible.

BULBS BY MAIL OR EXPRESS.—All bulbs herein quoted will be sent to any post office in Canada, prepaid, when ordered at printed prices, except where noted. Postage to Newfoundland—12 cents per lb., or fraction thereof, must accompany all orders, otherwise it will be deducted.

ORDERS.—All orders are filled in rotation as received. We would advise early orders to ensure their being filled complete, as later in the season some varieties become exhausted, when we must reserve the privilege of supplying another sort as near the color as possible, but shall always substitute an equal if not better variety than ordered.

REMITTANCE.—All orders must be accompanied with the cash for full amount of order, which may be sent by Registered Letter, P.O. Order, Postal Note or Express Order.

ADDRESSES.—Please be careful and write your Name, Post Office and Province plainly, that there may be no disappointment by orders being incorrectly sent.

GROWING RENNIE'S HYACINTHS IN GLASSES.

SIX BEST NAMED HYACINTHS FOR GROWING IN WATER (all different), 65c., 12 for \$1.25, by Mail Postpaid.

A Group of Rennie's Special Named Hyacinths and Single Tulips.

RENNIE'S SPECIAL NAMED HYACINTHS

FOR BEDDING OR FORCING.

These are Second Size Named Hyacinths, and are larger sized bulbs than usually put in our unnamed separate colors. They will produce fine spikes of bloom, and the different sorts as offered, being of one shade of color, render them of value for bedding in designs, enabling one to obtain the exact color effect desired. For growing in pots indoors they are second only to our Best Named Hyacinths offered on page 2.

Each, 8c.; doz., 90c., delivered. By Express at purchaser's expense, doz., 65c.; 100, \$4.50.

SPECIAL NAMED HYACINTHS.

- 59. Dark Blue.—King of the Blues (Dark).
- 60. Mauve.—Mauve Queen (Fine Lilac Shade).
- 61. Yellow.—Yellow Hammer (Fine Golden Yellow).

These Hyacinths are fine for naturalizing, planting in woods, or may be used massed in beds.

RENNIE'S CHOICE DUTCH HYACINTHS

IN SEPARATE COLORS, FOR BEDDING-OUT OR FORCING.

Good sized flowering bulbs, 15 centimeters (5¾ in. and upwards in circumference), much larger than the Mixed Hyacinth bulbs usually sent out. They are well adapted for open-ground planting, in mixed borders and informal beds, and on account of their low price are also extensively forced for winter blooming and cutting. The list offered below includes nearly every shade of red, white, blue, yellow, etc.

Each, 7c.; doz., 65c., delivered. By Express at purchaser's expense, each, 5c.; doz., 45c.; 100, \$3.00. Mixed colors, per 100, \$2.75.

- 69. Single.—Mixed, all colors.
- 70. Double.—Dark reds.
- 71. Double.—Pink shades.
- 72. Double.—Pure whites.

DUTCH ROMAN HYACINTHS

ALSO CALLED MINIATURE HYACINTHS.

78. These Hyacinths are excellent for growing in pots, pans or boxes; they bloom very freely, often producing 3 or 4 spikes. They are equally desirable for culture outdoors; they should be planted closer together than the "Dutch Hyacinths." Culture is the same as recommended for the Roman Hyacinths, and they come into bloom after the Roman Hyacinths are exhausted. The flowers are red, pink, white and light blue in various shades. Each, 6c.; doz., 45c.; postpaid.

GROWING HYACINTHS OUTDOORS

The bulbs may be planted any time from October to December—the earlier the better. They succeed in any good, well-drained garden soil. Set the bulbs so that the tops will be 3 or 4 inches below the surface and 6 to 10 inches apart. Before very severe weather comes on, cover the beds with straw, leaves or manure to protect them from the frost, but care should be taken that this covering is not too thick, as the bulbs are as likely to be injured by being kept too warm as by freezing. The mulching should be removed in March.

GRAPE HYACINTHS

79. One of the prettiest of early spring flowering bulbs, growing about 6 inches high and throwing up numerous spikes of clear blue or white flowers, which resemble a miniature bunch of grapes. They are hardy and once planted take care of themselves; in clumps or lines they are very effective. 8 to 12 bulbs in a 6-inch pan make a pretty plant for window decoration, blooming at Easter. Mixed Colors.—4 for 10c.; doz., 25c.; per 100, \$1.00, postpaid.

OUR PREPARED FIBER FOR GROWING BULBS IN VASES, BOWLS, ETC. (Without Drainage)

For those who have neither a garden, or the conveniences of greenhouses, or have a difficulty in obtaining suitable soil, we would recommend this system of culture. Any receptacle may be used for the purpose provided it is non-porous. Price, per lb., 5c; 6 lbs., 25c; 25 lbs., \$1.00, by express at purchaser's expense.

WHITE ROMAN HYACINTH—(For Pot Culture)

MAMMOTH CROCUS

Crocus are among the earliest of spring flowers, and are most effective when planted under the sod about the lawn.

Crocus grow to perfection in Our Prepared Bulb Fiber. Plant 6 to 8 bulbs in a bowl or other receptacle 5 to 6 inches in diameter. Grow slowly and in not too high a temperature. They will not stand much heat and love a rather moist atmosphere.

MAMMOTH-FLOWERING NAMED VARIETIES.

These are large, selected bulbs of the best varieties, and are noted for the immense size and quantity of their flowers and richness of color.

Early Roman Hyacinths

(FRENCH GROWN.)

A charming class, specially adapted for forcing and house culture, each bulb producing several graceful spikes of delicately perfumed flowers. They may be had in bloom from November till spring, by early and successive plantings. Bulbs may be planted close together, and, in pots and pans of six or more bulbs, are very effective. They are not considered hardy enough for open ground.

A Handsome Bed of Tulips—Belle Alliance with Border of Pottebakker White.

SINGLE EARLY TULIPS

Tulips are universal favorites, and their ease of culture, combined with beauty of form and gorgeous coloring, renders them the most popular bulbs grown for spring bedding, and for winter flowering in the greenhouse and window garden they are incomparable.

For cultural directions see our pamphlet, "How to Grow Bulbs," free with every order.

The letters A, B, C, preceding the varieties, indicate their earliness of bloom. The A's flower together and are the earliest, B next, etc. The average height in inches is also given to aid in arranging flower beds. ORDER BY NUMBER.

A BED OF MURILLO DOUBLE TULIPS

DOUBLE EARLY TULIPS

While not equal to the single in brilliancy, the double varieties remain much longer in bloom. The early varieties, such as Murillo, Imperator Rubrorum and the Titian, are excellent for forcing. The later sorts will not bear forcing, but are very effective in beds or borders. A combination of solid bed of the pure white and bright scarlet varieties, La Candeur and Rubra Maxima, is especially effective. The average height of each in inches is prefixed, and the letters A, B, C, preceding the varieties, indicate their earliness of bloom. "How to Grow Bulbs," free with every order.

GIANT DARWIN TULIPS

These gorgeous new late or May-flowering Tulips are very stately and beautiful—producing immense flowers on tall sturdy stems attaining a height of from two to three feet. The flowers are models of perfection in form, lasting wax-like substance—and in a great variety of both dainty and richly brilliant colorings. The Darwin Tulips are exceedingly effective when grown in groups of one variety in the garden or herbaceous border. As cut flowers they are unsurpassable. They may be forced if brought into the heat not earlier than January. Leaflet, "How to Grow Bulbs," free with every order.

CLARA BUTT DARWIN TULIPS.

MAY FLOWERING OR COTTAGE GARDEN TULIPS

This class of Tulips with their exquisite coloring, and long and graceful stems coming in the month of May, between the Early Tulips and the Darwins, are an important class. Plant liberally of them in the border and among the shrubbery, where they will multiply and form large clumps. Being tall, they make a fine display among the shrubs. For cutting they are among the best, having long stems and lasting for a long time. Plant about Four inches deep. Do not force.

Narcissus or Daffodils

For cultural directions see our pamphlet, "How to Grow Bulbs."

These flowers, so well adapted to the hardy border, are much admired by all friends of hardy flowers, and are found most useful for planting among hardy perennials and shrubbery as well as in solid beds and borders. They are equally valuable for growing in pots and pans for house decoration, as they are easily grown and make a splendid show. **Culture.**—Same as for Hyacinths. The Polyanthus varieties are not hardy enough for our climate and should be grown in the house only.

GIANT SINGLE DAFFODILS.

Water

GIANT "PAPER-WHITE" NARCISSUS

248. These beautiful, graceful Narcissus will flower as early as Christmas, and are the best of all the European bulbs for growing in water. The flower is whiter than that of the Chinese Sacred Lily. We offer mammoth bulbs of these, imported especially, which are equally good for growing in earth. Grown in bowls of water like the Chinese Lilies, it should flower in from six to eight weeks. Planted in earth, use 6 or 8 bulbs in an 8-inch pan, which started in September will flower by Christmas. In planting from week to week, a succession of bloom can be had from early December to March. Price delivered, each 6c., doz. 70c.; express not prepaid, doz. 60c., 100.....\$3.25

GIANT PAPER-WHITE NARCISSUS

These produce large clusters of beautiful orange blossom-like flowers of unexcelled fragrance. For winter blooming they are always sure to succeed under any treatment, and their great beauty can be fully appreciated by those who have grown them. They are much like the lovely Chinese Sacred Lily.

249. PAPER-WHITE GRANDIFLORA, Largest Flowering (for Forcing).—Pure white. An improved strain of the Paper-White; bulbs are not as large as the "Giants" offered elsewhere. Price delivered, each 5c., doz. 50c.; express not prepaid, doz. 40c., 100.....\$1.50

250. DOUBLE ROMAN (for Forcing).—Large trusses of snowy white flowers with a double rich yellow cup. Forces very early and easily and is delightfully fragrant. One of the best for early forcing and bloom. Price delivered, each 6c., doz. 60c.; express not prepaid, doz. 50c., 100 \$1.75

251. GRAND MONARQUE.—Pure white with citron cup. The finest of all white Narcissus. Price delivered, each 6c., doz. 60c.; express not prepaid, doz. 50c., 100.....\$1.75

255. GOLDEN SUN (Grand Soleil d'Or).—Rich yellow, with deep red cup. For cutting this is a fine variety, as it makes a grand show. Price delivered, each 6c., doz. 60c.; express not prepaid, doz. 50c., 100 \$1.75

253. CHOICE MIXED POLYANTHUS NARCISSUS (from named sorts). Price delivered, each 5c., doz. 50c.; express not prepaid, doz. 40c., 100.....\$1.50

A MAGNIFICENT BULB FOR GROWING IN WATER

CHINESE SACRED LILIES

254. (The Chinese Shui-Sin-Far). This sort has been cultivated for unknown ages in the Orient. The Chinese call it the Flower of the Gods, or Flower of Good Luck. Every Chinaman even away from his native land, cultivates them at the proper time and the blooming of the bulbs serves him as an omen for the coming year's luck. Sad indeed is the Celestial whose bulbs refuse him bloom. The enormous bulbs are brought into flower in an incredibly short time, five to six weeks often sufficing. You can really see them grow day by day.

LARGE SELECTED BULBS.—Each 12c., doz. \$1.25, postpaid; original baskets containing 30 bulbs, \$1.50 per basket (doz. 80c.), by express.

FERTILIZER

RENNIE'S PLANT FOOD.—A Fertilizer made expressly for plants grown in the house, garden or conservatory. Free from odors, clean to handle, and, in addition to keeping the plants free from vermin, promotes in them a strong, healthy growth, and early and abundant blossoms. Soluble in water. Packages, each 20c. and 30c.; by mail 30c. and.....45c.

SULPHO TOBACCO SOAP

A WONDERFUL AND INEXPENSIVE INSECTICIDE

Sulpho Tobacco Soap is a powerful agent for the destruction of lice and insects. One or two applications will rid plants of the pests. Animals may be washed with same solution that is used for plants, or a lather may be made and applied with hand or sponge. Full directions with each cake. 3-oz. MISCELLANEOUS BULBS AND ROOTS

ANEMONES

Beautiful and showy spring-flowering bulbs, producing brilliantly colored flowers, valuable either for outdoor planting or house culture. If planted indoors they should be left in same pots year after year, as they give best results when treated in this manner.

257. Choice Double, Mixed.—3 for 10c., doz. 30c.
258. Choice Single, Mixed.—4 for 10c., doz. 20c.

ALLIUM

259. Neapolitanum.—A great favorite for forcing for winter cut flowers; large heads of pure white flowers. 5 for 10c., doz. 20c., 100 \$1.20, postpaid.

AMARYLLIS

260. Barbadoes Spice Lily (Johnsonii).—Enormous bright crimson flowers with a white stripe through each segment. Large bulbs, 30c. each, extra large, 50c. each, postpaid.

261. Jacobean Lily (Formosissima).—Dark scarlet, free blooming, splendid for pot culture, and can be grown in water like Hyacinths. Each 12c., \$1.20 per dozen, postpaid.

262. Bermuda Hybrids.—This new Royal race of Amaryllis produces blossoms of truly gigantic size. The flowers are larger than the Auratum Lily, and with colors which for purity and intensity are marvels. A well known specialist has spent years in hybridizing and perfecting this strain, during which time they have been seen by horticultural experts all over the world, and their great superiority over all known Amaryllis fully acknowledged. The colors vary from as near pure white as has ever been found, to the deepest maroon, taking in all intermediate shades and showing contrasting stripes of white, rose scarlet, blood red, etc.

To have the best in Amaryllis give our "Royal Strain" a trial. Each bulb 50c., 6 for \$2.50. Each bulb is really worth five times the amount, but we wish to disseminate these floral wonders.

RENNIE'S SUPERB TUBEROUS-ROOTED BEGONIAS

Very few plants are better adapted to the summer decoration of the window garden, the verandah and the conservatory than the Tuberous Begonia. It is a constant and prolific bloomer, remarkably rich and varied in coloring, and so easy to grow that all persons succeed with it. Imported direct from Ghent, Belgium.

263. Single Begonias.—Crimson, scarlet, pink, white, yellow, orange. (Ready in December). Price: Each color, each 10c., doz. 75c., per 100 \$5 00

264. Double Begonias.—Crimson, scarlet, pink, white, yellow, orange. (Ready in December). Price: Each color, each 15c., doz., \$1.25, per 100 \$8.00

FRILLED AND CRESTED (Tuberous Begonias)

This strain, by careful selection, has been wonderfully improved, until it is now the finest of the tuberous-rooted section. The flowers are of large size, with beautifully frilled and wavy petals, not unlike the finest single Petunias. Imported direct from Ghent, Belgium. (Ready in December).

265. Frilled or Crested Begonias.—Mixed Colors. Each 15c., doz. \$1.50, per 100 \$10.00

BLEEDING HEART

266. Dielytra Spectabilis.—Ready in November. One of our most ornamental spring-flowering plants, with handsome peony-like foliage, long drooping racemes of pink and white heart-shaped flowers. Strong roots, each 30c., 4 for 60c.

MAMMOTH CUBAN LILY

267. Scilla Clusi.—These are magnificent winter bloomers, producing enormous clusters of star-shaped blue flowers, often 3 feet in circumference. They are among the most striking flowers we have in our list. Bulbs very large and strong and sure to bloom. A charming variety for growing in pots; unlike the other sorts, this variety is not entirely hardy. First sized bulbs, each 20c., 3 for 50c.

MAMMOTH CUBAN LILY

GLORY OF THE SNOW

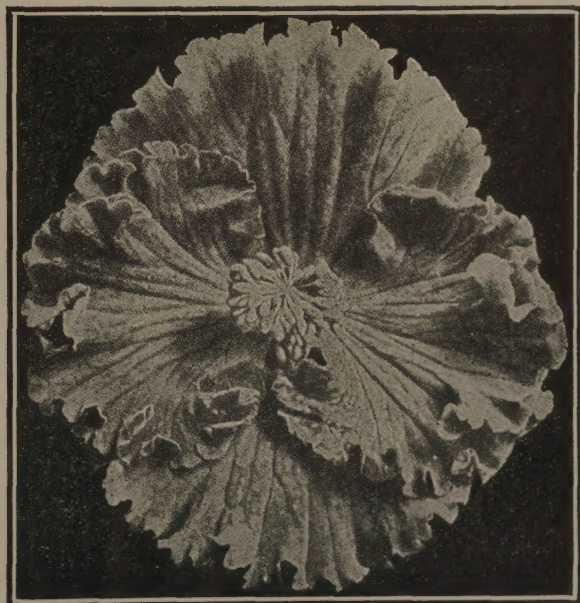

(Chionodoxa)

The most beautiful of dwarf blue spring flowers, resembling those of Scilla Siberica, but larger, slightly taller, and more handsome. The Chionodoxa is very hardy, thriving in any ordinary garden soil, and in almost any situation. The bulbs continue to flower from year to year.

268. Luciliae.—Brightsky-blue flowers, with large white centres. 3 for 10c., doz. 25c.

CROWN IMPERIALS

269. An old and well-known spring blooming plant, with clusters of pendant bell-shaped flowers surmounted by a tuft of green leaves; it is very effective in mixed borders and centres of beds. They succeed well in any soil. Mixed varieties. Each 20c., per doz. \$2.00

TRUE BERMUDA EASTER LILY—(*Lilium Harrisii*)

THE FINEST WINTER FLOWERING LILY—THE EASIEST TO GROW.—Pure pearly white, deliciously fragrant, and a remarkable profusion of bloom, characterize this charming and celebrated Easter Lily. A profusion of bloom may be had throughout the winter and spring, if a number are planted and "brought in" at different times. To have a succession of bloom at least a dozen bulbs should be used. Place in sunny position, and the lilies will flower in a temperature of from 60 to 70 degrees in about eight weeks.

The bulbs we offer are the true Bermuda Easter Lilies (*Lilium Harrisii*), secured direct from our Bermuda grower, and are the best to be had. We offer only large and healthy bulbs, which will make a vigorous growth and give an abundance of extra-large, magnificent flowers, five to eight on each plant.

Fill a 6-inch pot with soil, plant the bulb, water moderately and put away in a warm place until the roots begin to form. Then transfer to the sitting-room to the warmth and light. Bermuda Easter Lilies may be planted outside. They are hardy in the southern states and will survive northern winters if protected with leaves or litter. They flower in three months from planting.

301. BERMUDA LILY.—Mammoth Bulbs (9 to 11 inches in circumference). Each 40c., 3 for \$1.10. doz. \$3.75.

302. BERMUDA LILY.—First Size Bulbs (7 to 9 inches in circumference). Each bulb produces 8 to 10 flowers. Each 20c., doz. \$2.00.

FORMOSA EASTER LILY (*Lilium Formosum*).—Ready in October. This variety of Easter Lily blooms shortly after Christmas or a few weeks later than the *Harrisii* or Bermuda Easter Lily. Plants of sturdy growth, about 3 feet high, and produce beautiful snow-white trumpet-shaped lilies 6 to 8 inches long in abundance.

304. Mammoth Bulbs (9 to 10 inches).—Each 25c., doz. \$2.40

305. First Size Bulbs (7 to 9 inches).—Each 20c., doz. \$1.80

JAPAN EASTER LILY (*L. Longiflorum Giganteum*).—Ready in October. This is the correct variety to plant for flowering at Easter. It is later than either the above, and being of stocky growth is unusually free from disease, bearing snow-white trumpet-shaped flowers of rare fragrance.

306. Mammoth Bulbs (9 to 10 inches in circumference).—Each 25c., doz. \$2.25

307. First Size Bulbs (7 to 9 inches in circumference).—Each 20c., doz. \$1.80

308. LILIUM CANDIDUM (Madonna or Annunciation Lily).—Ready in September. This is one of the loveliest and best known lilies. The flowers, of which there are six to twenty on each stem, are snow-white, and of the most delightful fragrance. It is hardy, and will thrive in any ordinary garden soil, preferring a position where it can get plenty of light and air. Blooms in the open ground in June. Customers will do well to plant 12 or more for a permanent bed. The True White Garden Lily. Extra Size Bulbs, each 15c., doz. \$1.20; by express not prepaid, per 100. \$7.00.

HARDY JAPANESE LILIES

(Ready in November.)

These glorious flowers of radiant beauty are very hardy, grow rapidly and vigorously, and survive from year to year, forming a permanent and attractive feature of the garden. The bulbs should be planted about 6 to 8 inches deep, in good, light soil. We offer the most carefully selected sorts in large sound bulbs.

309. LILIUM AURATUM.—Ivory white with crimson spots. Extra size bulbs, each 25c., doz. \$2.00

EASTER LILY

LILIUM CANDIDUM

IRIS (Flowering Flag)

Are you a flower enthusiast, and as such could you possibly overlook the section of Iris, this flower of beauty and charm singularly all its own? From the small and low-growing spring sorts followed by English, Spanish and other species until rounded out by the gorgeous Japan Kaempferi sorts, this flower is a beauty all its own. Well called the orchid of the poor man's garden.

290. Japanese (*Kaempferi*).—Ready in October. The magnificence of these splendid new Irises surpasses description; in beauty, size of flower, richness of coloring, they are grand. The flowers are of enormous size, averaging from 6 to 8 inches across, and of indescribable and charming hues and colors, varying like watered silk in the sunlight, the prevailing colors being white, crimson, rose, lavender, violet and blue. Attains greatest perfection if grown in moist soil. Each 25c., doz. \$2.40

Spanish Iris (*Iris Hispanica*).—A slender growing, beautiful species. Blooms during May and June according to season. Is unexcelled for growing in the house in a rather cool atmosphere. If grown in pots with soil it needs good drainage and moderately rich soil. Plant 6 to 8 bulbs, according to size, in a 6-inch bowl or pot. Can be placed in the light at once.

CHOICEST SORTS OF SPANISH IRIS.

291. Gold of California.—Deep rich yellow.

292. British Queen.—Pure white, very large.

293. Prince of Orange.—Orange and bronze.

294. Corn Flower Blue.—Fine brilliant blue.

Rennie's Select Paeonies

Each 35c., set of 8 for \$2.40, or 3 for \$1.00, doz. \$3.50.

These magnificent Paeonies closely rival the rose in perfume, brilliancy of color and perfection of bloom. Being perfectly hardy, they require little or no attention, succeeding in almost any kind of soil, but producing larger and finer blooms when planted in a deep, rich and slightly damp loam.

312. EDULIS SUPERBA.—Beautiful brilliant crimson, silvery reflex; large, well-formed, full flower on strong stems. Blooms early. Lasts well. Fragrant and good in every way. A much worthier sort than its price would seem to indicate. There is quite a stock of it in existence.

313. EDWARD ANDRE.—Deep crimson-red, very free bloomer. Early.

314. L'INDISPENSABLE.—An enormous, heavy flower of wonderfully solid petalage. Very soft, pleasing, sea-shell-pink.

315. CHARLEMAGNE.—Very fine compact flower, soft rose with blush centre.

316. FESTIVA MAXIMA.—Pure white, centre petals occasionally tipped red. Most popular for cutting.

317. DUKE OF WELLINGTON.—Extra fine large pure white; fragrant.

318. LADY BRAMWELL.—A handsome silvery rose of fine form.

319. PRESIDENT ROOSEVELT.—Finest deep red.

Above are all fine double flowers.

DOUBLE PÆONIES

HERBACEOUS.—Flowers large, massive, perfect in outline and most beautiful; indeed, it would be difficult to conceive a more gorgeous and generally useful hardy plant.

320. DOUBLE WHITE, DOUBLE PINK, DOUBLE CRIMSON.—Each 25c., 3 for 80c.

TREE PÆONY

321. PÆONY ARBOREA.—These Japanese Tree Paeonies differ from the herbaceous varieties in their growth, which is in the form of a dwarf shrub; they are equally free flowering and commence blooming about three weeks earlier than the double herbaceous sorts, and while also perfectly hardy, they are benefited by slight protection through the winter. Strong plants, assorted colors. By express, each \$1.00, doz.....\$10.00

FUNKIA—DAY LILY

FUNKIA

HARDY PLANTS, ROSES, Etc., for Autumn Planting

Rennie's Select (Ever-Blooming) Hardy Hybrid-Tea Roses

Ask for Leaflet on Rose Culture.

These are unquestionably the true perpetual hybrids; the strong infusion of Tea blood into the old perpetuals has, by judicious hybridization, produced in the last decade an entirely new race of Roses. No words of praise can adequately convey the extreme beauty and usefulness of this glorious section, which now dominates all other sections of Bedding Roses.

TO PROTECT HYBRID TEA ROSES OVER WINTER.—Cover each rose bush with six or eight inches of earth above the ground in the Fall. In Spring, the bush may be pruned back to the height it was covered with earth in the Fall. Remove the covering gradually in the Spring when danger from frost is past.

Extra strong 2-year old bushes, our selection, assorted colors, each 40c, doz. \$3.75 (except where noted), delivered by mail. Heavier plants sent when ordered by express (not prepaid).

Hardy Perpetual Roses, Etc.

FRAGRANT GARDEN ROSES—EXTRA STRONG TWO-YEAR-OLD BUSHES.

These are the "June Roses" so admirably suited for garden culture, the formation of rose beds, hedges, etc. In June and July these lovely roses are brilliant with large, perfumed flowers of richest colors. Many varieties bloom late in summer and even into autumn.

Our selection, assorted colors. Price, 30c each; 12 for \$2.75, delivered by mail. When ordered by express we do not prepay charges but send heavier bushes.

HARDY RAMBLER ROSES.—They are perfectly hardy in the open ground; will grow from 8 to 10 feet in a season, the flowers appearing in great panicles as large as a man's hat. Crimson, pink, white and yellow Ramblers. Each, two-year-old plants, 30c; three-year-old plants.... 50c.

***CAROLINE MARNIESSE (CEMETERY).**—A continuous bloomer, color pure white, slightly tinged with pink. Entirely hardy, fine bushes. 2-year-old bushes, each 35c; 3-year-old bushes, each 50c; doz..... \$5.00

***DOUBLE WHITE MEMORIAL CEMETERY ROSE.**—Flowers pure snowy white, borne in such numbers as to fairly envelop the plant. Succeeds everywhere. Perfectly hardy. Strong bushes. 2-year-old, 35c; 3-year-old 50c, doz..... \$5.00

***MME. GEORGES BRUANT.**—Buds are long and pointed; flowers glistening white and fragrant. Hardy. 2-year-old, each 50c, doz. \$5.00; larger size, 2-year-old plants, each 50c, doz..... \$4.50

***TRUE ENGLISH SWEETBRIAR.**—Entirely hardy and splendid for Hedges. Extra strong bushes. Each 30c, doz..... \$3.00

Egyptian or Perennial Tree Onion

A true novelty in the Onion family, being entirely hardy. The young sets grow on top like top onions. These should be planted in the Fall. When once set out, without the slightest protection, they will come up year after year. For sweetness and tenderness they are unsurpassed. Earlier than any other variety of onions. Price, pound 30c., 4 pounds \$1.10, postpaid.

WILD RICE SEED

Directions for Sowing.—Put the rice in coarse cotton or linen bags, and sink them in water for 24 hours. Sow in water which is from 6 inches to 5 feet deep, in soft mud bottom, and in places where there are but few weeds. It is useless sowing these seeds except in mud bottom, or on low marshy places which are covered with water the year round. In running water sow as much out of the current as possible. New crop seed just harvested, lb. 25c., lb. 35c. postpaid; 10 lbs., by express \$2.00.

MUSHROOMS

HYACINTH GLASSES

These Glasses are made specially for Hyacinth culture, and are charming ornaments for the window. Hyacinths can be grown in glasses without the slightest trouble, and always with good results. Price, either style, in various colors, 20c. each; \$2.00 per doz. (Glasses cannot be sent by mail.)

FERTILIZERS

RENNIE'S PLANT FOOD.—A Fertilizer made expressly for plants grown in the house, garden or conservatory. Free from odors, clean to handle, and promotes a strong, healthy growth. Soluble in water. Packages, each 20c. and 30c.; by mail 30c. and 45c.

STERLINGWORTH PLANT FOOD TABLETS.—A Scientific, Odorless, Concentrated Fertilizer for Potted Plants, making them grow and bloom luxuriantly. Box 12c. postpaid; large size box 25c. postpaid.

RENNIE'S PREPARED BULB FIBRE FOR BULB CULTURE.—The bulbs are potted the same way as in ordinary soil just showing their tops. It is not necessary or desirable to press the fibre tightly, otherwise the roots do not work freely, and bulbs have a tendency to push themselves upwards. Once potted, they require very little attention, only great care should be taken to keep the compost moist, but on no account must it be sodden or too wet.

If once allowed to become dry, even for half a day, the pores of the roots close up and the bulbs in many cases go blind and are ruined.

When the bulbs have been potted, vases or bowls should be kept in a dark, airy cellar or room.

When the bulbs have grown about one inch, they should be brought into more light, and the vases or bowls may be placed in the window, taking care, of course, to keep them from frost. Per lb. 5c., 6 lbs. 25c., 25 lbs. \$1.00, by express at customer's expense.

BLOOD AND BONE (Harris').—Excellent for Lawns and Bulb beds. Manufactured from blood and bones; is perhaps the most powerful animal fertilizer in use. 25 lbs. 75c., 50 lbs. \$1.15, 100 lbs. \$2.00, ton.....\$30.00

NITRATE OF SODA.—A fertilizer for all crops, quick in action, and gives astonishing results. Being extremely soluble, it should not be applied until the plants are above ground. 5 lbs. 35c., 25 lbs. \$1.25, 50 lbs. \$2.25, 100 lbs. \$4.00, ton.....\$70.00

BONE FLOUR.—Ground perfectly fine; for pot plants or flower beds. 10 lbs. 50c., 50 lbs. \$2.00, 100 lbs.....\$3.50

BONE MEAL.—We have a high grade of this valuable fertilizer prepared especially for us. It is useful for all crops, but especially for Lawns and Fruit Trees. Used largely by florists and gardeners. 5 lbs. 30c., 10 lbs. 50c., 25 lbs. 75c., 50 lbs. \$1.25, 100 lbs. \$2.00, ton.....\$35.00

MUSHROOM SPAWN

ENGLISH MILLTRACK.—Fresh for planting now. Included with each order for spawn is a free pamphlet giving directions for growing, also recipes for preparing and cooking. Per brick 20c., 5 for 90c.; by mail, brick 35c.

AMERICAN PURE CULTURE SPAWN.—This type produces larger mushrooms and is more prolific than the English, bearing much earlier, and continuing to crop for a longer time. This spawn is produced by selecting spores from individual specimen mushrooms and is propagated and transferred to the bricks of manure, which, when planted, produce mushrooms all of one type. We offer two grades: STANDARD, per brick 25c., doz. \$2.50; by mail 40c. DIRECT, per brick 30c., doz. \$3.00; by mail 45c.

Low Hyacinth Glass. Tall Hyacinth Glass.

BONE MILLS, ETC.

THE STAR BONE CUTTER (for Green Bones).—Is the most compact and easiest to work yet introduced. Those who know the value of green bone for poultry should not be without one of these. Weight 35 lbs. Price, without stand.....\$6.00

WINTER WHEAT

EARLY RED CLAWSON (Bald).—This is one of Jones' wheats, and has given splendid all-around satisfaction. It is very early, and specially adapted to stiff clay soils. Early Red Clawson produces good strong straw, with red chaff and a large compact head. By freight, peck 45c.; bush. \$1.75; 5 bush. \$8.50; bags extra.

ABUNDANCE (Bald).—In the six years' test at Ontario Agricultural College this stands third as one of the highest average yielders of grain, producing 49.7 bushels per acre. Grain white, straw stiff, and stands up well. Very hardy, winters well. One of the best wheats we know of for all soils. Peck 45c., ½ bush. 90c., bush. \$1.75, 5 bush. \$8.50 (bags extra).

AMERICAN BANNER (Bald).—Stands at the top of the list. Among all the varieties grown at the Ontario Agricultural College for the past 8 years, this gives a yield of 50.8 bushels per acre. Heads bald, chaff yellow, grain white, straw strong, and winters excellently. By freight, peck 45c., bush. \$1.75, 5 bush. \$8.25 (bags extra).

DAWSON'S GOLDEN CHAFF (Bald).—Average yield in 8 years' test at Ontario Agricultural College, 48.3 bushels per acre. Grain white. By freight, peck 45c., bush. \$1.75, 5 bush. \$8.50 (bags extra).

TWO PURE CALF MEALS—Made in Britain

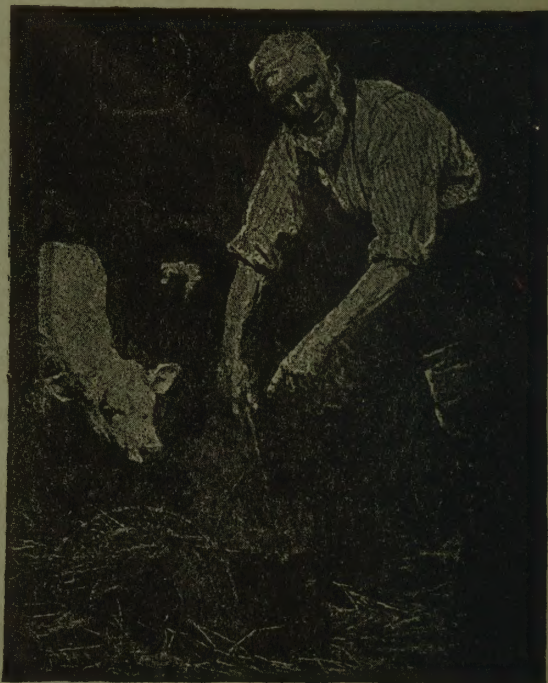

Bibby's Cream Equivalent

FOR CALF REARING

"Cream Equivalent" contains practically twice as much oil as the average calf meal, and as oil or fat is the most important constituent of a meal of this kind, this fact enhances its value considerably, as a substitute for milk, over other calf meals. Price ex-warehouse Toronto: 50 lb. bag \$2.25; per 100 lbs. \$4.50.

BIBBY'S CALF MEAL.—Does not contain as much oil as "Cream Equivalent" but is richer in protein and is recommended for growing Calves and young Pigs. Price at Toronto, per 100 lbs. \$4.00.

Sold by leading Canadian Merchants all over Canada. Write us if your local dealer does not stock them.

READY FOR CUTTING

The Grounds of the New General Hospital at Toronto—Grown from Rennie's Lawn Grass Seed.

IT IS USED BY THOUSANDS FROM COAST TO COAST

THERE is nothing more attractive than a beautiful lawn around home grounds—the rich, green, velvety turf being the heart and life of all. A lawn may be formed by laying turf or by sowing seed. The gain in time by sodding is so slight as to scarcely be worthy of consideration, while the results obtained by the two methods are not to be compared. The Grasses that compose a pasture sod (generally the kind used for “sodding lawns”) are not at all the best sorts for forming a perfect lawn, and will not give a smooth, elegant surface.

RENNIE'S BEST XXX LAWN SEED

Is by far the best mixture of grasses offered for the purpose of quickly producing a permanent lawn. It is prepared from our own formula, and is a careful blending of varieties adapted to producing the thick growth and velvety appearance so much sought after. The grasses composing this mixture grow during different seasons of the year, so that a deep green, velvety sward is maintained year after year, and without burning brown in summer, its constant luxuriance rivaling the famous lawns of Old England. Whether you want to seed a small grass plot in your yard, or a lawn of more pretentious size, you should use this grass mixture. By express, at purchaser's expense, lb. 40c., 10 lbs. \$3.50

MAKING A NEW LAWN

We are always pleased to give full information and directions for the establishment of new lawns under any condition of soil. Ask or Booklet on Lawns and Greens.

QUANTITIES TO USE.—Although less seed gives good results, we recommend sowing 1 lb. for 150 sq. ft., 50 lbs. for one-fourth acre, where a very close matted turf is required quickly. If intended for renovating an old lawn, about half the above quantity is sufficient.

We have made the formation and renovation of lawns a study for years and thousands of the finest lawns and Grass plots in Canada were obtained by following our instructions.

May be sown from April to the end of September.

RENNIE'S TOUGH TURF GRASS SEED FOR ATHLETIC FIELDS.

“TOUGH TURF” is a special blend for ball grounds, cricket grounds, and other athletic fields. This mixture forms a thick, strong, quick-growing, enduring turf that will stand any amount of hard usage without showing wear and tear. Lb. 30c., 10 lbs. \$2.50.

RENNIE'S EVERGREEN

A perfect balanced combination of the best fine-leaved, deep-rooting grasses. Lb. 35c., 10 lbs. \$3.00.

RENNIE'S SHADY-NOOK SEED

FOR SHADED SPOTS.—This is a special mixture of grasses that flourish best in shaded situations, and never fails to revive the dead and sour places that often ruin the effect of an otherwise perfect lawn. Sow 1 lb. to every (20 x 15 ft.) 300 ft. Lb. 45c., 10 lbs. \$4.00.

CONCISE DIRECTIONS FOR MAKING A GOOD LAWN

We recommend digging to a depth of six to eight inches, using good loam and working the soil thoroughly so that the grass will root well. Apply plenty of well-rotted manure, such as Blood and Bone manure, mixed well with the soil and adding Bone Meal for top dressing.

Allow the weed seeds in the soil to germinate before sowing the Grass Seed, cultivating with a hoe or scuffler when the weeds are two inches high and sowing the Grass Seed as soon as the weeds have been eradicated. Apply a further top-dressing of well-screened manure and bone meal, sufficient to cover the seed and promote successful germination. Spray daily during dry weather, using a fine nozzle.

Roll the lawn lightly and the young grass should appear in 14 to 21 days when another top-dressing may be used, as we strongly recommend these applications which supply plenty of Nitrogen to the growing grass.

Use the Lawn-mower when the grass is two inches high, and any thin or bare spots should be re-seeded as soon as noticed. Roll the lawn after cutting, but this should be done when the lawn is dry, especially if the soil is of a heavy clay nature. Don't forget to water often with a fine spray.

RENNIE'S BOWLING LAWN

We have made a special study of Grass Seeds for Bowling Lawns. This seed is a mixture of strictly perennial grasses specially adapted to produce a close, fine enduring sward. Sow 4½ lbs. per rink (12 x 100 ft.). Lb. 35c., 10 lbs. \$3.00.

RENNIE'S GOLF PUTTING GREEN

Noted for grasses with that velvety appearance and such as produce the closest sward. Sow 40 lbs. per 60 x 60 ft. Lb. 40c., 10 lbs. \$3.50.

RENNIE'S PURE DUTCH LAWN CLOVER

Many prefer the Lawn Clover to a mixture of grasses, and the fact cannot be denied that a lawn of Clover only is magnificent. Dutch Clover is a good thing to sow along with other grasses, as it materially assists their growth. Fancy clean seed. Lb. 65c., 10 lbs. \$6.30.

RENNIE'S GIANT DARWIN TULIPS—RECOGNIZED AS THE ARISTOCRATS OF TULIPDOM.

These gorgeous new late or May-flowering Tulips are very stately and beautiful—producing immense flowers on tall, sturdy stems attaining a height of from two to three feet. The flowers are models of perfection in form, lasting wax-like substance—and in a great variety of both dainty and richly brilliant colorings. The Darwin Tulips are exceedingly effective when grown in groups of one variety in the garden or herbaceous border. As cut flowers they are unsurpassable. They may be forced if brought into the heat not earlier than January. Leaflet, “How to Grow Bulbs,” free with every order.
